Continuation of Substance of Interview including description of the general nature of what was discussed: It was noted to applicant the instant claim 1 read on a non-cigarette filter such as the intermetallic filter disclosed in US 6273925. It was also noted that claims 32-34 did not require an intermetallic compound hence the rejections would stand. Applicant faxed a set of claims amending the claims to be drawn to a cigarette filter and changing the dependency of claims 32-34 to claims that recite intermettallic compound. A copy of the faxed set of claims is being included. .
